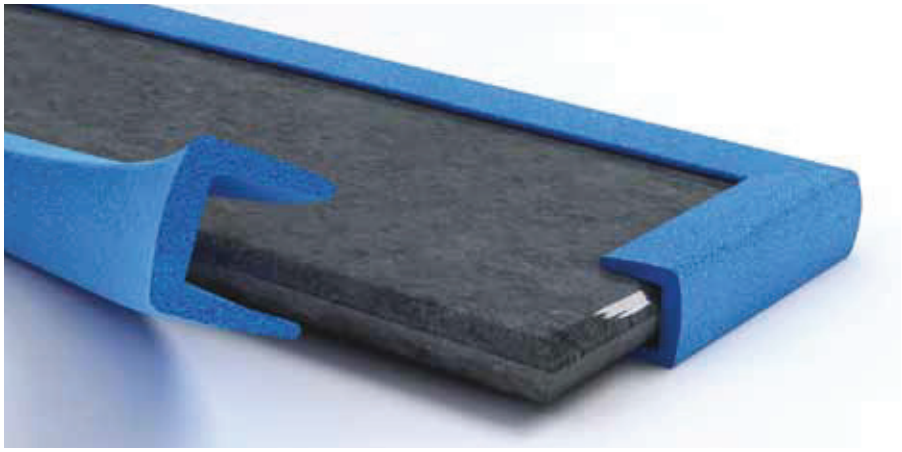
NOMAPACK® U



NOMAPACK® U are effective edge protection profiles for each type of corner or curve. They are available in different dimensions and densities in order to protect your products efficiently. We can also develop profiles according to customer's specifications.

- Edge protection from 2 to160 mm
- Easy fitting « Multishape » version
- Patented design

Product features:

- PE-LD foam
- Density from 25 kg/m^3 to 65 kg/m^3
- Supplied as lengths or coils
- Water absorption < 1 – vol.% after 40 days
- Recyclable
- The tolerance of the length of the coils is up to a maximum of 2%

Applications:

- Tables and worktops
- Shelves, storage units and other furniture parts
- Mirrors, glass plates, ceramic
- Works of art, framed pictures, etc.

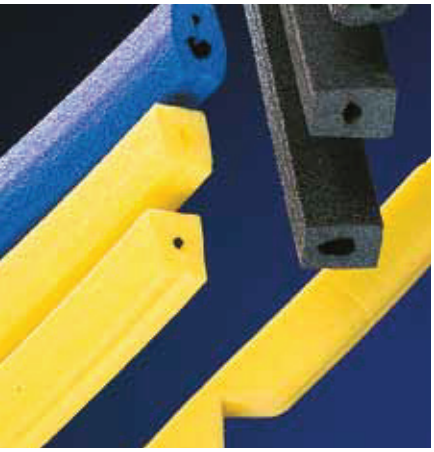
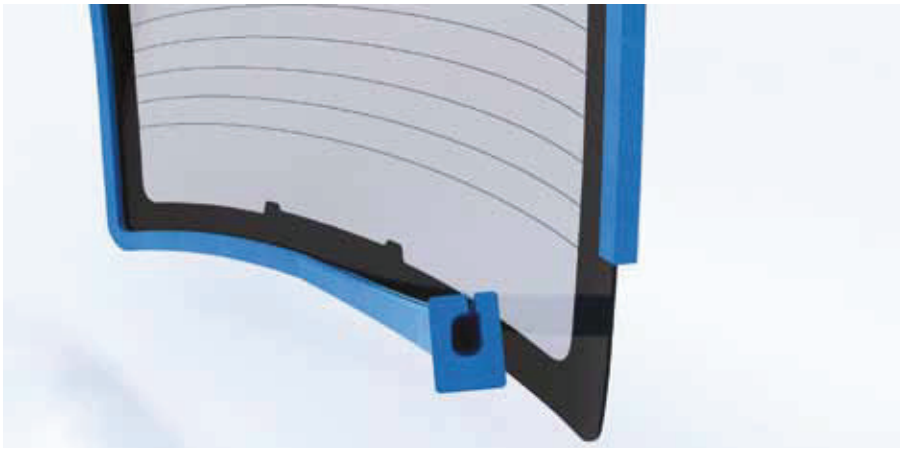
NOMAPACK® WS





NOMAPACK® WS is an innovative transport protection for windscreens and glass. An inner reinforcement of the profile prevents piercing due to sharp edges and protects the product efficiently. An extensive assortment of tool accessories is available to simplify the handling.

- Patented glass edge protection
- Unique, with inside reinforcement
- Efficient protection against scratches and breaks

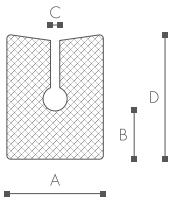
Product features:

- PE-LD foam
- Density from 25 kg/m^3 to 65 kg/m^3
- Supplied as coils
- Water absorption < 1 – vol.% after 40 days
- Recyclable
- The tolerance of the length of the coils is up to a maximum of 2%

Applications:

- Glass edges
- Windscreens
- Heavy and sharp goods

NOMAPACK® WS 33x26 BC / CBC



COLOUR	Standard blue
PACKAGING	On coils
COILS ON PALLET	4

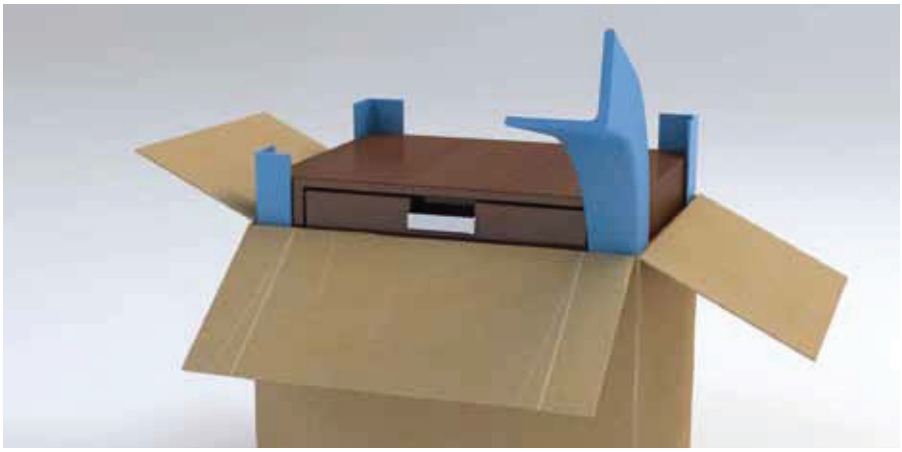
NOMAPACK® L



NOMAPACK® L profiles are available with or without adhesive. They supply protection for individual pieces or can work as protection of a whole pallet.

- Available in various lengths and thicknesses
- With or without adhesive

Product features:

- PE-LD foam
- Supplied as lengths
- Water absorption < 1 – vol.% after 40 days
- Recyclable

Applications:

- Corners and edges
- Narrow and scratch-sensitive goods
- Can be used in shrinking tunnels

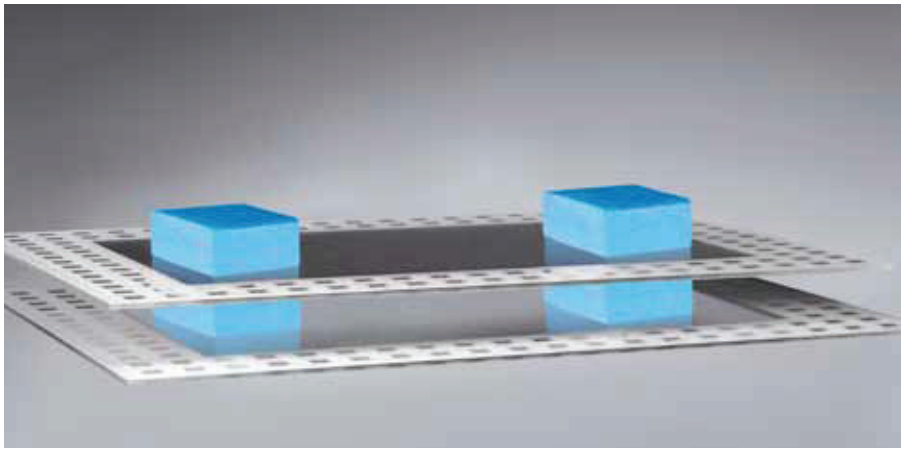
We recommend the adequate tests be made in your laboratory, plant or otherwise to determine if this product meets all your specific requirements. The utilization of the goods shall thus be at the purchaser's own risk.

The seller should refuse any responsibility regarding his intervention for direct and/or indirect damage potentially arising from this particular use. Only in case of product default, the seller shall not be liable for damages in excess of the purchase price of the product.

NOMAPACK® PAD



NOMAPACK® Pad, the little spacer with big effect, is available in different dimensions with permanent or residue-free removable adhesive. This is the ideal packaging spacer to separate or fix sensitive goods. The Pads are packed in preslit units, to allow you to separate the required lengths simply and cleanly.

- Available with permanent or residue-free removable adhesive.

Product features:

- PE-LD foam
- Supplied as pieces
- Water absorption < 1 – vol.% after 40 days
- Recyclable

Applications:

- Cushion
- Spacer
- Fixing

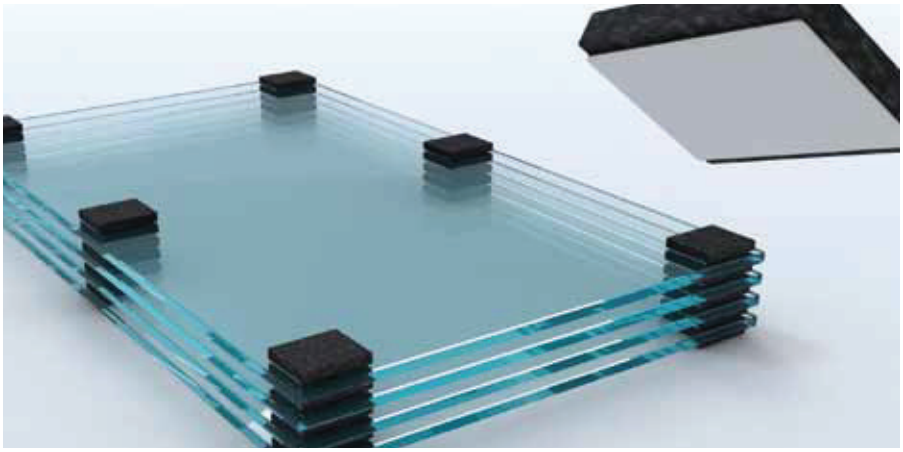
HMP = permanent adhesive (transparent Release)

To ensure optimum adhesion, a uniform push down of NMC Pads on a dry and dust free surface is recommended. In addition, the manufacturer recommends a storage and treatment temperature between + 10 ° C and + 40 ° C.

We recommend the adequate tests be made in your laboratory, plant or otherwise to determine if this product meets all your specific requirements. The utilization of the goods shall thus be at the purchaser's own risk.

The seller should refuse any responsibility regarding his intervention for direct and/or indirect damage potentially arising from this particular use. Only in case of product default, the seller shall not be liable for damages in excess of the purchase price of the product.

NOMAPACK® GLASS PAD



NOMAPACK® Glass Pads keep the distance between glass plates or panels and avoid undesirable scratches and marks during all kind of transport.

- Glass Pad simply stick with their own suction power and leave no traces or marks

Product features:

- XLPE foam with a self-adhesive foam layer
- Supplied as pieces
- Available in different dimensions and thicknesses

Applications:

- Distance holders to protect high-polished and sensitive surfaces

The pads are packed in bulk in cardboard boxes / two pads glued to each other.

Other sizes and colors are available on request with a minimum order quantity and a corresponding delivery period.

We recommend the adequate tests be made in your laboratory, plant or otherwise to determine if this product meets all your specific requirements. The utilization of the goods shall thus be at the purchaser's own risk.

The seller should refuse any responsibility regarding his intervention for direct and/or indirect damage potentially arising from this particular use. Only in case of product default, the seller shall not be liable for damages in excess of the purchase price of the product.

NOMAPACK® O

NOMAPACK® O profiles offer a complete range of round profiles in various diameters and thicknesses, which suits perfectly to round goods or elongated objects.

- Adaptable to every curve
- Special, total protection for delicate and easily-scratched goods

Product features:

- PE-LD foam
- Density from 20 kg/m^3 to 35 kg/m^3
- Supplied as lengths
- Water absorption < 1 – vol.% after 40 days
- Recyclable

Applications:

- Pieces of furniture
- Bicycles
- Fitness equipment

NOMAPACK® SYSTEM

NOMAPACK® System, the efficient transport protection for sensitive goods. NOMAPACK® System provides an ideal protection against shocks and vibrations thanks to its directly extruded, specially designed L-shape with integrated holes. It can be easily transformed to obtain a packaging frame.

- Outstanding protection against shocks and vibrations
- Tailor-made, adaptable and customer-oriented solutions

Product features:

- PE-LD foam
- Density from 24 kg/m^3 to 34 kg/m^3
- Supplied as lengths
- Water absorption < 1 – vol.% after 40 days
- Recyclable

Applications:

- High-tech products
- Medical items

NOMATEC® TUFF PAD

NOMATEC® Tuff Pad are coextruded round foams with a reinforced outer skin which offers various applications. Ideal to protect our kids while playing and climbing on playgrounds, trampolines or other game areas. NOMATEC® Tuff Pad are always there to prevent injuries and crushes. They cover the complete metallic structure and provide a long term protection.

Product features:

- PE-LD foam / Outer skin PE-LD
- Supplied as lengths
- Water absorption < 1 – vol.% after 40 days
- Recyclable
- Relatively UV resistant
- Conform with norm EN 71-3
- Pre-slit for easy use
- Other colours available on request
- Washable

Applications:

- Playgrounds, kids playing areas and climbing frames
- Scaffolding
- Transport of animals – bar coating
- Ski areas / ski lifts
- Diverse

NOMAPACK® C

NOMAPACK® C protects corners and edges reliably.

NOMAPACK® C range has been specially designed to protect bath ceramics and offers customized solutions for many different applications.

Product features:

- PE-LD foam
- Supplied as lengths
- Water absorption < 1 – vol.% after 40 days
- Recyclable

Applications:

- Bath and sanitary areas
- Distance holder to protect high-polished and sensitive surfaces
- Total protection for long and narrow goods
